- PHP
- Laravel
- Python
- Flask
- Java

Database & Tools

- MySQL
- Supabase
- Git
- Figma
- Vercel

LANGUAGES

- PortugueseNative
- EnglishIntermediate

SUMMARY

Full Stack developer at the beginning of my career, focused on building modern and responsive web applications. I have experience with React, TypeScript, PHP and Python, as well as API integration and database management. I'm looking to grow in environments that value best practices, clean code and user experience, building scalable products with real impact.

PROFESSIONAL EXPERIENCE

- Development Intern @ Agência VoêFly**2026 — Present
Internship · Remote
Development of high-performance interfaces for e-commerce and fintech clients. Building responsive screens with attention to usability, performance and visual consistency. Collaborating on web delivery workflows, frontend adjustments and integration with modern technologies.
ReactTypeScriptTailwind CSS
- Young Apprentice & Group Leader @ SENAI Avak Bedouian**2023 — 2024
Apprenticeship · On-site
Worked on technical learning projects, leading a group and organizing activities. Supported task division, communication between team members and delivery tracking. Built a technical foundation in programming, logic, systems and best practices.
PythonProgramming LogicTeamwork

FEATURED PROJECTS

- Pokedex Full Stack**2026
Full stack system built with React, PHP, and MySQL, integrated with PokéAPI to search and manage Pokémon data.
- Obsidian Auto Detailing**2026
Landing page built with TanStack Start, React 19 and Tailwind CSS v4, using shadcn/ui components and Motion animations.
- Nexo — Finance Tracker**2026
Platform to manage income and expenses with dashboards, interactive charts and financial reports, built with React and Supabase.
