## EDUCATION

### Systems Analysis and Development Technology

Unisaesiano · 2025—2027

### Technical Course in Systems Analysis and Development

SENAI Avak Bedouian · 2023—2024

## SUMMARY

Full Stack developer at the beginning of my career, with hands-on experience in React, TypeScript, PHP and Python — from frontend to database design and API integration. Focused on clean code, performance and strong user experience, with a track record of team leadership and delivering real projects in collaborative environments.

## PROFESSIONAL EXPERIENCE

### Development Intern · Agência VoêFly

2026 — Present

Internship · On-site

- Built high-performance interfaces for e-commerce and fintech clients, focusing on usability and visual consistency.
- Delivered responsive screens and collaborated on web delivery workflows, integrating modern technologies into the team.

### Young Apprentice & Group Leader · SENAI Avak Bedouian

2023 — 2024

Apprenticeship · On-site

- Led a group on technical learning projects, organizing activities and task division among team members.
- Built a solid technical foundation in programming, logic, systems and development best practices.

## FEATURED PROJECTS

### Obsidian Auto Detailing

2026

Premium landing page for a high-performance auto detailing studio, built with TanStack Start, React 19 and Tailwind CSS v4.

React 19
